

Lake Rotomahana Boat Cruise - itinerary

Wednesday 3rd April

L

Non-Walkers & Walkers Welcome, Good Fitness Required for Walkers

This will be a fabulous day, enjoying a boat cruise on Lake Rotomahana and for those who would like to walk, we have added an hours downhill scenic walk through the most active thermal highlights of the valley. Walkers bring a stick, flat shoes a small bag to carry a drink and a snack. We will be walking the 1.5km approx. 1.5hr walk to bus stop 1. Rotomahana, a beautiful lake, has its separate geothermal system, with unique thermal activity that can only be seen from the vessel during your boat cruise. One of New Zealand's most scenic, unspoilt, natural wilderness areas is the lake and surrounding land protected from development. Patiti Island, in the middle of the lake, has been restored to an almost predator-free state by the Waimangu Volcanic Valley and is now a haven for New Zealand native birds. Soak in all this amazing nature experience and then finish with a social lunch before heading home.
